Essential lipids for
everyday wellness.

**essenti
omega**[®]*nova*
Exceptional Purity.
Advanced Performance.

megaPet[®]
Lipids for Pet Vitality.

algalis[®]
Sustainably from nature.
Perfected by science.

ruby[®]
Next-Gen Enhanced Omega-3.

For more than 2 decades, Naturmega has advanced lipid science, redefining the way omega-3 is conceived, delivered, and absorbed. Through pioneering technologies, from molecular distillation to supercritical CO₂ fractionation and our patented platforms, we set new standards of freshness, purity, and performance.

Today, **Naturmega** empowers global brands to bring smarter, more sustainable nutrition to life.

Our **portfolio** covers the full spectrum of **omega-3** innovation:

Foundational concentrates with proven freshness and purity for everyday wellness.

Ultra-high concentrates powered by supercritical CO₂ technology for unmatched performance.

Lipids for Pet Vitality.

Plant-based omega-3s delivering sustainable, fresh DHA for all life stages.

A next-gen bonded phospholipid Omega-3 platform for advanced absorption and efficiency.

Essential lipids for
everyday wellness.

EssentiOmega® is built on molecular distillation technology, the first of its kind in Latin America. This process ensures fresh and pure omega-3 concentrates that deliver reliable quality for global wellness brands.

Benefits:

Proven freshness
and purity.

Flexible EPA/DHA ratios
for diverse formulations.

Everyday solutions for
cardiovascular, brain,
and general health.

Product Range:

Medium concentrates 18/12 up to 60% (500–699 mg/g).

EssentiOmega® Nova is powered by Naturmega's supercritical fluid fractionation CO₂ facility, the first in South America. It delivers ultra-high purity omega-3 concentrates with exceptional freshness, performance, and sustainability.

Benefits:

> 70% ultra-concentrates for precise dosing.

Superior oxidation stability and purity.

Ideal for clinical nutrition, pharmaceuticals, and premium formulations.

Product Range:

Nova concentrates 70– 85% EPA/DHA (700–850 mg/g).

Product EPA/DHA	Type	EPA mg/g	DHA mg/g	Omega-3 mg/g
400/300	EE & TG	400	300	800
40/30	EE & TG	350	260	680

Lipids for Pet Vitality.

Smart **Omega-3** Nutrition Tailored for Pets.

Specialized range of omega-3 formulations designed for pet health and wellness.

Benefits:

Covers everyday nutrition to premium high-concentration solutions.

Supports healthy skin & coat, joints, heart, vision, and overall vitality in dogs and cats.

Backed by Naturmega's 20+ years of lipid expertise, now dedicated to the pet category.

Megapet® Daily:

5-15% omega-3

Balanced formulations
for general pet
nutrition.

Megapet® Active:

20-30% omega-3

Targeted support for
active pets.

Megapet® Advanced:

40-60% omega-3

Premium formulations for
specialised needs.

Next-Gen Enhanced Omega-3.

Ruby-O® Smarter Lipids. Real Results.

Ruby-O® is Naturmega's patented Bonded Phospholipid Omega-3 (BPL-03™) platform, designed to redefine omega-3 absorption and performance. Its unique molecular structure achieves clinically proven results at lower doses, delivering more with less.

Ruby-O® Key Benefits:

Clinically validated absorption with peer-reviewed science.

Higher efficiency at lower doses, achieving more with less.

Versatile phospholipid delivery system for stability and performance.

Unique platform capable of combining omega-3s with other bioactives.

Patented in the US & internationally, ensuring innovation leadership.

Adaptable to multiple delivery formats, enabling diverse formulations.

Product Range:

Ruby-O® Prenatal, Ruby-O® Neuro, Ruby-O® Cardio, Ruby-O® Balance, Ruby-O® Plant-Based.

Product Name	Phospholipids	EPA	DHA	Total Omega-3	Source
	(mg/g)	(mg/g)	(mg/g)	(mg/g)	
Ruby-O® Prenatal	400	50	250	330	Fish Oil
Ruby-O® Neuro	400	42	260	340	Fish Oil
Ruby-O® Cardio	400	180	90	310	Fish Oil
Ruby-O® Balance	400	160	110	320	Fish Oil
Ruby-O® Plant Based	300	-	400	400	Algae Oil

Targeted Health Solutions Powered by Freshness and Purity.

From cardiovascular and cognitive health to vision, prenatal and women's wellbeing, and sports performance, Naturmega's technologies meet the world's most important health needs.

Prenatal & Women's Health:
Pure, DHA-rich solutions for maternal care.

Brain & Cognitive Health:
Fresh omega-3s to support focus, memory, and healthy aging.

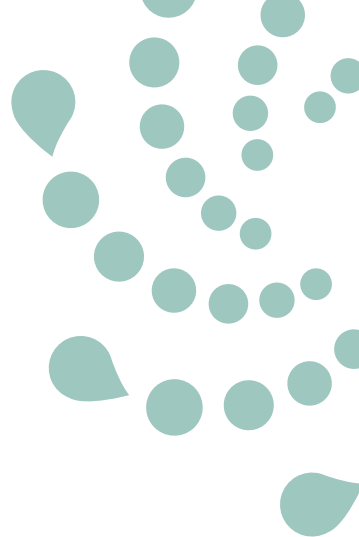

Vision:
DHA and phospholipids for eye performance.

Cardiovascular:
Fresh, high-purity EPA/DHA for heart wellness.

Sports & Lifestyle:
Next-gen omega-3s for endurance, recovery, and active living.

Innovation is in our DNA.

From molecular distillation to the first supercritical fluid fractionation facility in South America, Naturmega continues to set new standards in omega-3 technology.

Through Ruby-O®, we have reduced reliance on fish oil by more than 50%, easing pressure on marine ecosystems while maintaining freshness, purity, and performance.

Redefining lipids
with science, sustainability, and purpose.
